What is this product?

Type	<p>SICAV Teil I Gesetz von 2010</p> <p>It is a sub-fund of an umbrella structure consisting of one or more sub-funds. The periodic reports are prepared for the umbrella structure. These documents are available as set out under "Other relevant information". Each sub-fund is regarded as a separate fund in the relationship between the unitholders. The rights and obligations of the unitholders of one subfund are separate from those of the unitholders of the other subfunds. In relation to third parties, the assets of a subfund are only liable for liabilities and payment obligations relating to that subfund. In principle, unitholders have the right to convert the units held into units of another subfund. Supplementary information can be found in the respective valid sales prospectus.</p>
Term	<p>The Fund was established for an indefinite period. However, it may be wound up at any time if it is no longer possible to manage the Fund efficiently or if a change in the economic and/or political environment makes it necessary to wind it up.</p>
Objectives	<p>The investment policy of PTAM Global Equity aims to increase the value of the investment capital contributed by shareholders. To achieve this investment objective, the fund's assets will be invested in accordance with the principle of risk diversification.</p> <p>The fund is a financial product that promotes, among other things, environmental or social characteristics and qualifies under Article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (SFDR).</p> <p>The fund is primarily invested in equities. As part of its investment policy, the fund will invest more than 50% of its assets in equity investments. The fund's investment policy also provides for the acquisition of shares in companies with low market capitalization. Due to their low market capitalization, the shares of these companies may be less liquid and therefore more difficult to sell under certain circumstances. Up to 10% of the fund's net assets may be invested in units of investment funds. The fund is therefore eligible for target funds. Investments may be made worldwide, including in emerging markets.</p> <p>The investment policy of PTAM Global Equity aims to increase the value of the investment capital contributed by shareholders. To reach this investment objective, the fund invests in equities, ADRs, and GDRs, equity-like participation certificates, and units in investment funds (UCITS and UCIs, including ETFs) in accordance with the principle of risk diversification. Depending on the financial market situation, the fund may hold up to 20% in liquid assets. The fund may use derivatives and other techniques and instruments for hedging purposes and for efficient portfolio management. A derivative is a financial instrument whose value—not necessarily 1:1—depends on the performance of one or more underlying assets, such as securities or interest rates. The income remains in the fund and increases the value of the shares. Investors may request the redemption of shares from the management company on any trading day. However, the management company may suspend redemption if exceptional circumstances make this appear necessary, taking into account the interests of investors. This fund is an actively managed fund that is not benchmarked.</p>
Target retail investor group	<p>The fund is intended for private clients, professional clients and eligible counterparties that pursue the objective of asset accumulation/optimisation. This fund is a product for investors with general knowledge of and/or experience with financial products. The potential investor could bear a financial loss up to the amount of the capital invested and does not attach any importance to capital protection. The investor's intended time horizon should be long-term.</p>
Further information	<p>The fund's depository is Hauck Aufhäuser Lampe Privatbank AG, Niederlassung Luxemburg. The prospectus and the current annual and semi-annual reports, the current unit prices and further information on the fund can be found free of charge in German or English at www.hauck-aufhaeuser.com.</p>

What are the risks and what could I get in return?

Risk Indicator

We have classified this product in risk class 4 on a scale of 1 to 7, where 4 corresponds to medium risk class.

The risk of potential losses from future performance is classified as medium. In adverse market conditions, it is possible that the ability of the Hauck & Aufhäuser Fund Services S.A. to pay you will be affected.

The product may be exposed to further risks that are not reflected in the global risk indicator. Please refer to the sales prospectus for more information.

This product does not include any protection from future market performance so you could lose some or all of your investment

The global risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to repay you.

Performance Scenarios

The figures shown include all the costs of the product itself, (where applicable) [but may not include all the costs that you pay to your advisor or distributor, and includes the costs of your advisor or distributor]. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The final amount you receive from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of an appropriate benchmark over the last 11 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment (using a suitable benchmark) between 7/10/2024 and 1/9/2026.

The moderate scenario occurred for an investment (using a suitable benchmark) between 5/9/2016 and 5/9/2022.

The favourable scenario occurred for an investment (using a suitable benchmark) between 1/9/2019 and 1/9/2025.

What happens if Hauck & Aufhäuser Fund Services S.A. is unable to pay?

It should be noted that the assets of the Fund are held separately from the assets of the Management Company. Consequently, investors in the Fund will not suffer any losses in the event of the failure or insolvency of the Management Company.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have made the following assumptions:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 6 year(s)
Total costs	786.88 EUR	5,323.17 EUR
Impact on return (RIY) per year	7.87 %	5.53 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.63% before costs and 7.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. This person will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (3% of amount invested /300 EUR). This person will inform you of the actual distribution fee.

Composition of costs

		If you exit after 1 year

Transaction costs	0.3200% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	33.63 EUR
Incidental costs under specific conditions		
Performance fees	The fee is calculated on the basis of the increase in value in combination with a high water mark and a hurdle rate and is paid annually at the end of the financial year. See prospectus for more information. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	65.50 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 6 year(s)

In view of the risk and return profile, we recommend a holding period of at least 6 years for this fund. However, you may redeem the fund on the terms set out in the prospectus. Early redemption may significantly affect the risk and return profile. Redemption may be temporarily suspended if there are circumstances that require a suspension and if this is considered justified, while taking into account the interests of the investors.
